

Scattergood Unit 3 Repowering

Overview

The Los Angeles Department of Water and Power is preparing to construct four power generating units at the Scattergood Generating Station located at 12700 Vista Del Mar, Los Angeles, CA 90293. This project will entail demolition of some structures and the construction of two full size units on the lower level and two smaller units on the middle level of the plant. The project work force will utilize on-site parking. This project will be constructed by Kiewit Power Constructors Co.

Schedule

The anticipated schedule for construction of the four power generating units:
Mobilization – mid June 2013
Project Completion – November 2015

Information Updates

Community Outreach Hotline

Kiewit Power Constructors Co. will be maintaining a 24-hour “hotline” for the public to ask any related questions, or express any concerns, which may arise in respect to the construction of the Scattergood Unit 3 Repowering Project. Callers will be able to leave a message which will be immediately transferred to a project Community Outreach Representative. This person will be qualified to address these concerns or comments you may have as soon as possible. If the concern is an emergency, there will be another option to speak directly with one of our staff at that point in time as well.
