## **Project Summary**

The applicant proposes to construct a five-story, 190-room hotel with one level of underground parking, containing 72 parking spaces, on the vacant southern portion of the site, and allow for continued use of the existing office building and parking structure on the northern most portion of the site. The proposed hotel would be 111,350-gross-square-foot, a maximum of 89 feet tall and include 190 rooms. The existing two parcels on the site (Assessor Parcel Nos. 4138-005-035 and 4138-005-036) would be subdivided into three new parcels. Each parcel would contain an individual use as follows: (1) five-story hotel

(1.52 acres), (2) office building (0.42 acre), and (3) office/hotel parking and remote airport parking to serve LAX (1.04 acres). The total floor area ratio (FAR) for the site would be approximately 1.47.

The project site is currently zoned Corporate Office (CO). A General Plan Amendment and a General Plan Map Amendment are proposed to allow the creation of the 888 North Sepulveda Boulevard Specific Plan and the 888 North Sepulveda Boulevard Specific Plan Land Use classification. A Zone Map Amendment would amend the zoning district from Corporate Office (CO) Zone to 888 North Sepulveda Boulevard Specific Plan (888 NSBSP) Zone. A Zone Change and Zone Text Amendment are proposed as part of the project and would rezone the site as 888 North Sepulveda Boulevard Specific Plan and add the 888 North Sepulveda Boulevard Specific Plan to El Segundo Municipal Code (ESMC) Title 15, Chapter 3-2(A)(9), which lists the Specific Plan Zones in the City. A Conditional Use Permit is required for the hotel use. An Administrative Use Permit is required for the remote airport parking use. A Parking Demand Study is required to allow a portion of the total parking provided in the parking structure to be a joint/shared use of parking between the hotel, the office building, and the remote airport parking.

### PROJECT DESCRIPTION AND OVERVIEW

The proposed project is to evaluate and enhance available parking in the downtown and Smoky Hollow areas of El Segundo. On June 18, 2013, City Council directed staff to proceed with using Downtown Parking In-Lieu funds to hire a consultant to develop conceptual designs for Richmond Street and Standard Street. The project includes an evaluation to: 1) maximize the total number of on-site street parking spots between El Segundo Blvd. and Holly Avenue, while considering the total right-of-way width available, sidewalk requirements and existing off-street access points; 2) identify the pros and cons of the proposed configurations and how many additional spaces the proposed designs(s) would achieve over the current number available; 3) identify the physical constraints for each design, and provide options for how those constraints could be resolved; 4) suggest other creative ideas or additional considerations that would enhance the downtown "feel or ambiance" while still achieving additional parking; and 5) estimate the probable cost of construction for each proposed configuration.

The Community Workshop will include a presentation of the conceptual designs for Richmond Street and Standard Street and provide an opportunity for the public to provide comments regarding those conceptual designs. The public is encouraged to attend and participate in this community workshop on the parking improvements along Richmond Street and Standard Street between El Segundo Boulevard and Holly Street in the Downtown Specific Plan and Smoky Hollow Specific Plan areas respectively.
