To allow the sale of beer and wine for off-site consumption (Type 20 ABC License) at an existing gas station that includes a market (Union 76).

Address: 601 North Sepulveda Blvd.
Applicant: Veronica Becerra
Business Name: Union 76 Gas Station
Property Owner: Airport Five Star, Inc.

The applicant requests an Administrative Use Permit to allow the sale of beer and wine for off-site consumption (Type 20 Alcoholic Beverage Control license) at an existing

automobile service station that includes a market at 601 North Sepulveda Boulevard. The project site is located in the General Commercial (C-3) Zone on the block bounded to the south by East Mariposa Avenue and to the north by East Palm Avenue.

Currently, the site is developed with an automobile service station that includes 3 pump islands and a 1,700 square-foot building that contains an auto repair business and a 503 square-foot convenience market. The project involves the removal of the three existing auto repair service bays and the expansion of the existing market to 1,463 square feet. The remaining 237 square feet will be used for an office and storage. The remodeling of the existing building includes both exterior façade improvements and interior changes to the market with approximately 13 square feet of refrigeration space used for alcohol sales. No floor area expansion is proposed and no changes to the pump islands are proposed. Seven parking spaces are currently provided on the property including one accessible parking space that will remain. A minimum of 6 parking spaces are required for the proposed uses.

The proposed project is categorically exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to 14 California Code of Regulations § 15301 as a Class 1 categorical exemption (Existing Facilities). The project includes an alcohol license for an existing market which results in a minor alteration in the operation of an existing building involving no expansion of the existing use. The project is not anticipated to have any significant impacts with regard to traffic, noise, air quality, or water quality. Moreover, there is no new construction proposed for this project. There are adequate utilities and public services to serve the project.

ACTION: Receive and file the decision of the Director of Planning and Building Safety to approve the application. Approved (4-0)

The Planning Division received an application for Vesting Tentative Map No. 71261 to subdivide one 40,200 square-foot lot into six 6,704 square-foot single-family residential parcels. The existing lot is a through lot fronting on both the 700 block of Sycamore Avenue and the 700 block of Maple Avenue at the intersection of Yucca Street. The project is located in the Single-Family Residential (R-1) Zone within the block bordered by Hillcrest Street to the east and the City boundary to the west.

The proposed project is categorically exempt from additional California Environmental Quality Act (CEQA) analysis pursuant to CEQA Guidelines § 15332 which identifies the project as a Class 32 infill development. The project is not anticipated to have any significant impacts with regard to traffic, noise, air quality, or water quality. Moreover, the project is proposed to be built on a site of not more than five acres surrounded by urban uses. Further, the site has no value as habitat for endangered, rare, or threatened species. There are adequate utilities and public services to serve the project.
