Catalytic Converter Thefts

**1990 Acura Integra
(sample image)**

Actual suspect vehicle

**Gold 4-door compact
(Possibly Toyota Corolla)**

On November 2, 2008 at 1125 hours, the above two vehicles were captured on video surveillance entering a parking lot at 2260 E. El Segundo Boulevard. Both vehicles followed each other and parked in an area where two Toyota Tacoma trucks had the catalytic converters stolen. Both vehicles also entered a nearby parking structure where a third Toyota Tacoma had the catalytic converter stolen. Video footage from another nearby location where a catalytic converter had been stolen also captured vehicles similar to the above.

Vehicle 1 is believed to be a 1990-1993 white Acura Integra hatchback that is missing the driver's side front hub cap and vehicle 2 maybe a gold colored Toyota Corolla. The driver of the possible Toyota was described as a male Hispanic adult in his 20's.

If you have any similar crimes that may involve these vehicles, please contact Detective Phill Stolnack at (310) 524-2277. ESPD DR#: 08-4248.
