Composting is the simple and natural way Mother Nature recycles organic waste. Egg shells, grass clippings, leaves, vegetable and fruit scraps, tea bags, coffee grounds and many other organic materials found at home can be recycled using simple backyard composting techniques. The result...a valuable and free organic fertilizer for your garden!

**Join us for a Free Composting and Water-wise Gardening Workshop**

**Saturday, May 22, 2010 @ 10:00 a.m.**

El Segundo Joslyn Center, 339 Sheldon Street  
(Parking Lot North of Grand between Eucalyptus & Sheldon)

The City of El Segundo is offering a free one-hour workshop (reservations are not needed). Discounted compost and worm bins available for purchase to El Segundo residents. For more information, contact the City of El Segundo Public Works Department at (310)524-2359.
